As a result of this seminar, you may also want to discuss how mutual funds and variable annuities may help with your investment strategy.

If you are investing in a variable annuity through a tax-advantaged retirement plan such as an IRA, you will receive no additional tax advantage from the variable annuity. Under these circumstances, you should only consider buying a variable annuity if it makes sense because of the annuity's other features, such as lifetime income payments and death benefit protection. These features can be purchased at an additional cost.

Variable annuity products are issued by Hartford Life and Annuity Insurance Company and by Hartford Life Insurance Company and are underwritten and distributed by Hartford Securities Distribution Company, Inc. The Hartford Mutual Funds are underwritten and distributed by Hartford Investment Financial Services, LLC.
